

Tests de validation W3C de la sémantique HTML

Vérification de la sémantique HTML générée par chaque page React du projet

1. Objet du document

Ce document décrit les tests de validation que j'ai réalisés avec le validateur officiel du W3C (Nu Html Checker) sur chaque page du projet React. L'objectif est de vérifier que le HTML produit par l'application respecte les règles de sémantique HTML et d'accessibilité, et de documenter les corrections apportées lorsqu'une erreur a été détectée.

Le projet étant une application React de type SPA, le HTML final n'existe pas dans les fichiers sources : il est généré au moment de l'exécution dans le navigateur. Il n'est donc pas possible de tester un simple fichier .html. La méthode retenue consiste à copier le DOM réellement rendu depuis la console du navigateur, puis à le coller dans le validateur W3C.

2. Méthode de test

La procédure ci-dessous est appliquée à l'identique pour chaque page de l'application.

1. Ouvrir la page à tester dans Chrome.
2. Ouvrir les outils de développement avec F12, puis aller dans l'onglet Console.
3. Taper la commande de copie ci-dessous, puis valider avec Entrée.

```
copy("<!DOCTYPE html>\n" + document.documentElement.outerHTML)
```

4. Ouvrir le validateur W3C : validator.w3.org/nu/#textarea.
5. Coller le contenu avec Ctrl+V dans la zone de texte, puis cliquer sur Check.

Pourquoi cette commande

`document.documentElement.outerHTML` renvoie l'intégralité du DOM rendu, c'est-à-dire la page telle que React l'a effectivement construite dans le navigateur, avec toute sa structure et tous ses attributs. `copy(...)` place ce résultat directement dans le presse-papiers, ce qui évite de sélectionner le code à la main.

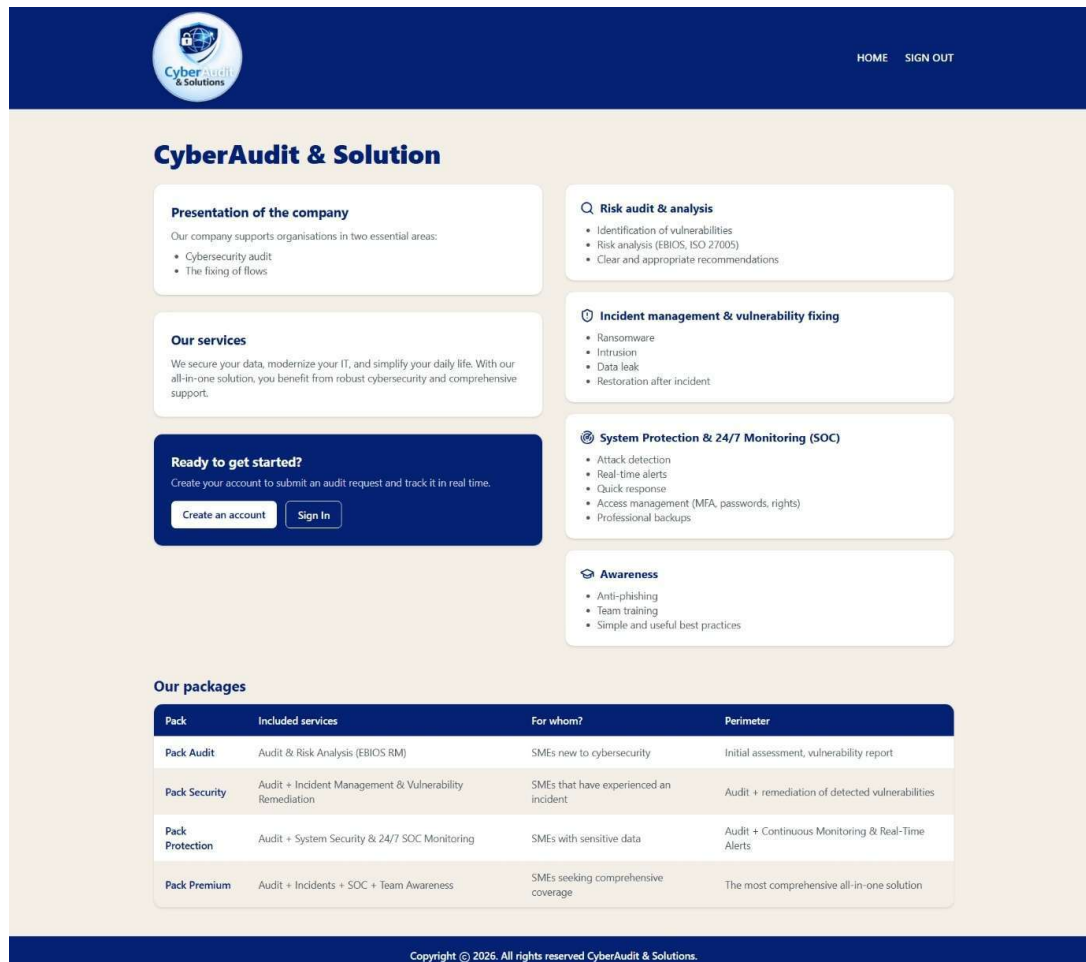

Le préfixe "`<!DOCTYPE html>\n`" est ajouté volontairement. La balise `<!DOCTYPE html>` se situe en dehors de l'élément `<html>` et n'est donc pas incluse dans `outerHTML`. Sans elle, le validateur signale un DOCTYPE manquant. En la concaténant avant le DOM, la page collée est complète et valide dès le premier essai.

Note : le rendu visuel et les styles de chaque page sont conservés tout au long des tests. Les captures d'écran ci-dessous montrent à la fois la page telle qu'elle s'affiche et le résultat renvoyé par le validateur W3C.

3. Résultats page par page

3.1 Page d'accueil (Homepage)

<https://portfolio-kappa-dun-65.vercel.app/>

Page d'accueil rendue dans le navigateur, styles conservés.

Erreurs détectées au premier test

Erreur 1 : DOCTYPE manquant.

Cause : `copy(document.documentElement.outerHTML)` ne copie pas la balise `<!DOCTYPE html>` car elle se trouve en dehors de `<html>`.

Correction immédiate :

Il faut ajouter `<!DOCTYPE html>` en toute première ligne avant de coller dans le validateur. Il ne s'agit pas d'un défaut du code, mais d'une limitation de la méthode de copie, désormais corrigée directement dans la commande.

```
<!DOCTYPE html> <html lang="en">...
```

Erreur 2 : aria-label sur un <div> sans role.

Cause : dans Logo.jsx, un <div aria-label="Logo CyberAudit & Solutions"> était utilisé sans attribut rôle. Le W3C interdit aria-label sur un <div> générique.

Correction dans le code : ajouter role="img" sur les deux <div> portant un aria-label.

<!-- Avant --> <div aria-label="Logo CyberAudit & Solutions" ...> <!-- Après --> <div role="img" aria-label="Logo CyberAudit & Solutions" ...>

3.3 Inscription (Register)

<https://portfolio-kappa-dun-65.vercel.app/register>

The screenshot shows a web browser displaying the registration page of 'CyberAudit & Solutions'. The page has a dark blue header with the company logo and navigation links 'HOME' and 'SIGN OUT'. The main content area is a light beige color. In the center, there is a white card titled 'Create an account' with a user icon. Below the title, it says 'Fill in the information below to get started'. The form includes input fields for 'Company Name', 'First Name', 'Last Name', 'Email' (pre-filled with 'tommy.jouhans@outlook.com'), and 'Password' (masked with dots). A note specifies password requirements: '10 characters min., 1 uppercase, 1 lowercase, 1 digit, 1 special.' There is a 'Create an account' button and a 'Sign In' link for existing users. The footer contains the copyright notice: 'Copyright © 2026. All rights reserved CyberAudit & Solutions.'

3.5 Formulaire d'audit

<https://portfolio-kappa-dun-65.vercel.app/audit/new>

The screenshot shows the 'Audit request form' in the Client Portal. The form includes fields for Username (Tommy), Company Name (Holberton School Dijon), and a 'Select pack' section with four radio button options: Pack Audit, Pack Security, Pack Protection, and Pack Premium. A 'Message' field is also present with the placeholder text 'Describe your audit request (optional)'. A 'Sent the audit request' button is at the bottom. The 'Included Services' section is currently empty, with the instruction 'Select a package to view service details.' The left sidebar shows 'Client Portal' with links to Dashboard, Audit Request, and Training. The top navigation bar includes the CyberAudit & Solutions logo and links for HOME and SIGN OUT. The footer contains the copyright notice: 'Copyright © 2026. All rights reserved CyberAudit & Solutions.'

Formulaire d'audit rendu dans le navigateur.

The screenshot shows the 'Request Submitted Successfully' confirmation page. A green checkmark icon is at the top. Below it, a table displays the submitted request details:

Case number :	DOSSIER-2026-0010
Contact :	Tommy Jouhans
Company Name :	Holberton School Dijon
Selected pack :	Pack Protection
Services included :	Audit + System Security & 24/7 SOC Monitoring SMEs with sensitive data Audit + Continuous Monitoring & Real-Time Alerts
Price :	3500.00 EUR
Submission date :	06/06/2026 20:02
Estimated processing time :	15 business days
Message :	Tester

Below the table, a message states: 'A confirmation email has been sent to your address. You can track your request status in real time from your dashboard.' At the bottom, there are two buttons: 'Go to my Dashboard' and 'Submit a new request'. The left sidebar and top navigation bar are identical to the previous screenshot. The footer contains the copyright notice: 'Copyright © 2026. All rights reserved CyberAudit & Solutions.'

Résultat W3C : aucune erreur ni avertissement.

Document checking completed. No errors or warnings to show.

4. Conclusion

Toutes les pages du projet React ont été testées avec le validateur W3C selon la même procédure. Les deux erreurs initiales relevées sur la page d'accueil ont été traitées : le DOCTYPE est désormais inclus directement dans la commande de copie, et l'attribut `role="img"` a été ajouté dans `Logo.jsx` pour rendre l'usage de `aria-label` conforme.

Après correction, chaque page passe la validation sans erreur ni avertissement, ce qui confirme que la sémantique HTML générée par l'application est conforme aux règles du W3C.
